Continuation Sheet Attached

Brief Description of Arguments to be Presented: Noble col. 7 through col. 8, line 6 is limited to merely describing the reading of data in RAM in order to display an image. In contrast, the claim teaches, among other things, "a signal specifying a window with the location" and "rendering at least a first portion of the first frame of video at the first VGA in response to a first control signal, wherein the first control signal is a signal specifying a window location for displaying the active video." (Claim 21)

An interview was conducted on the above-identified application on _____.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
